

Systematic Review and Meta-Analyses of Randomized Clinical Trials Training Course

Join us for a hands-on learning experience designed by subject experts to deliver practical skills and transformative insights.

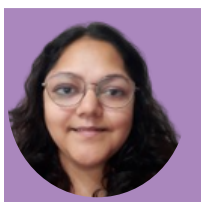

COURSE OVERVIEW

Systematic reviews and meta-analyses are at the heart of evidence-based decision-making in health research and policy. This intensive 3-day face-to-face course by The George Institute for Global Health (TGI) will provide participants with the knowledge and practical skills to plan, conduct, and report high-quality systematic reviews and meta-analyses. By the end of the course, participants will be able to design and conduct a systematic review with meta-analysis, critically appraise published reviews, and apply best practices in reporting and dissemination.

WHO IS THIS FOR

Early to mid-career researchers and professionals keen on building skills in systematic review and meta-analysis.

COURSE FACILITATORS

Dr. Rashmi Pant,
Senior Research
Fellow,
Biostatistics

Dr. Abdul Salam,
Program Head,
Cardiovascular
Research
