

Join our study to help improve seat belt safety for children and earn a \$25 Prezzy voucher!

What does it involve?

You will be invited to attend a 90 minute session at one of our labs in either Campbelltown, Liverpool or Randwick.

There we will ask you to 'think aloud' while fitting and observing a child-sized doll in three different seating conditions and deciding whether it is safe.

Who can participate?

1. People over the age 18
2. English ability to read and understand this flyer
3. Able to lift and move a child-sized doll in three different seating arrangements
4. Able to travel to one of the three lab locations

Where can I get more information?

Visit www.georgeinstitute.org.au/units/injury

Email the research team on carsafety@georgeinstitute.org.au
